FIRST DOMINICAN CIGAR FACTORY  
ESTABLISHED 1903

## **LA AURORA, a family business with a global dimension**

La Aurora is the first cigar factory in Dominican Republic. Its story begins in 1903 and has been linked to their time during these more than 112 years, combining the old tradition with a spirit of modernity and innovation.

It's founder, Eduardo León Jimenes son and grandson of tobacco growers, who was only 18 years old when he started the factory in Don Pedro, Guazumal, Santiago de los Caballeros. Since then, La Aurora has grown firmly tied to its family roots, but always with an eye for the global market.

León Jimenes' dream to create a premium cigar brand with worldwide dimension and to be recognized everywhere for its quality, is now fulfilled: La Aurora is a modern company with presence in more than sixty countries world wide, more than a thousand employees and facilities capable to produce a billion cigars per year.

And yet, La Aurora is a family business, true to the values that Eduardo León Jimenes implanted in its creation. Today, under the leadership of Guillermo León Herbert, president of La Aurora, fifth generation of his family in the tobacco world and third running the factory, La Aurora is a company with an impressive past and a promising future.
